

**REMARKS**

Figs. 6 and 7 are amended and enclosed with the amendment. The specification is amended to correct the reference "24" for designating the screw rod into -- 25 -- and the term "U-like shape" is amended into -- U shape --.

Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. However, the Examiner has pointed out that claims 1-2 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Responsive to this, thanks for the suggestions and instructions from the examiner, claims 1 and 2 are respectively amended so as to overcome the rejection(s) mentioned above and it is believed that, the amended claims 1 and 2 have disclosed a structure whose construction and function are quite different from and patentably distinguishable over the cited prior arts. Therefore, the amended claims 1 and 2 should be allowable. Claim 3 is deleted.

In view of the foregoing amendments and remarks, Applicant submits that the application is now in a condition for allowance and such action is respectfully requested.

Respectfully submitted,
